For the skin	<p>NOURISHES - A precious Oil for your skincare routine. It is intensely nourishing. It neutralizes free-radicals, helps to build healthy collagen, fights aging, helps the skin to be soft and young, improves suppleness and elasticity. Marula Oil can be used day and night as a source of nutrition and antioxidant energy for the skin cells. Suitable for young and mature skin and for all skin types.</p>	<p>PROTECTS - A natural defense for body and hair. Its most precious and appreciated property is to protect from adverse environmental conditions, wind, sun, dry weather, salted water and pollution, creating a natural barrier. It helps to improve the skin hydration thanks to the high content of Linoleic Acid, Alpha Linolenic acid and Oleic acid, vitamins and minerals. It is recommended for dry and mature skin and being mild, it can also be used for combination and oily skin.</p>	<p>REGENERATES - It is a softening, soothing and emollient Oil. Baobab Oil contains vitamins and essential antioxidants, very important for skin, hair and scalp care. It plays an exceptional role in regenerating and repairing tissues. It is a natural anti-inflammatory oil perfect on chapped, damaged and reddish skin. It gives elasticity and contrast stretch marks formation.</p>	<p>MOISTURIZES - It is a superb non-comedogenic, restorative skin care Oil. It has great moisturizing and restructuring properties thanks to its high content of essential fatty acids that contribute to the suppleness and beauty of the skin. Since it helps to dissolve excess sebum, it is excellent for skin prone to impurities and imperfections and also for children's skin care. Ideal for young and very young skin</p>
On hair	Marula Oil makes them strong and shiny	Perfect hair oil, especially for frizzy, brittle and split hair	It has a regulatory effect on the scalp. It can be applied both on the length and on the scalp.	Moisturizing treatment for hair and scalp.
